SUPPLIER TO SHIP CHANDLERS

Import & Export since 1894

WG van der Zanden  
Rotterdam - Holland

[www.wgzanden.com](http://www.wgzanden.com)

## ABOUT US

Since the company was established in Rotterdam in 1894, W.G. van der Zanden B.V. has been a supplier of household goods to ship chandlers both in the Netherlands and abroad. In the roughly 125 years that we have been in business, the range of products related to the shipping and hospitality industries continues to expand.

Van der Zanden does business with its partners: the ship chandlers in Rotterdam, Western Europe and far beyond. We do not supply directly to the end user in the maritime sector.

We unburden our partners on a daily basis thanks to our enormous stocks, the correct quality of the products at the right price, our excellent service and our reliability.

From our warehouse in the port of Rotterdam, with 8,500 pallet spaces, we can supply a standard range of more than 3,500 articles directly from stock.

Van der Zanden has been appointed by the company EMGA (Hotel and Catering Equipment) as official dealer for the maritime industry, meaning that we have an extra product range of 5,500 articles. This allows us to offer a product range of approximately 10,000 articles with a delivery time of 2-3 days.

In addition, Van der Zanden is the full service supplier for the IMPA and ISSA-linked article groups for your customers with luxury yachts, cruise ships, cargo and container ships, oil rigs, etc.
